

## Beltex Sheep Society

### Registration of Imported Sheep

1. Sheep that are to be imported must have been born in Belgium and fully registered with the Belgian Flock book.
2. The original pedigree **and** copy of the Intra Trade certificate **must** be submitted for registration to the Society office together with a clear list of sheep to be registered within **two months** of importation.
3. Import registration fee is £50 + vat.
4. If not submitted in the two-month timescale of importation a late import registration fee will be applied of £100 + vat.
5. Sheep must remain in the flock for a minimum of 18 months and all pedigree certificates will be held by the Society office.
6. If sold before the 18 month period is up a levy of £100 + vat will be applied.
7. If the Importer sells privately or at a non recognised Society Sale the importer is responsible for the Import Registration fee of £150 + vat if the purchaser wants to use in a pedigree flock.
8. If the sheep are in lamb, the Society must be supplied with the original pedigree of the ram, which must be registered and recognised by the Belgian Flock book and Beltex Sheep Society. The Beltex Sheep Society reserves the right to blood type the ram and the ewe at the importer's expense and verify the pedigree of the offspring by use of the blood type.
9. You must be a fully paid up member to register imported sheep. All decisions regarding the eligibility of imported sheep for registration in the Beltex Sheep Society Flock Book are at the discretion of Council and no appeals will be entered into.
