2. All tags must comply with UK legislation and Society rules on identification.
3. Substitutes must be declared to the Auction Mart Office and Society within the specified time stated on the sale entry form and catalogue, and must be marked with a red dot on the loin.
4. Scrapie genotyping is voluntary, but is included in the standard DNA sample for sires used and ewes flushed. All sheep catalogued with scrapie genotype must have valid certificates.
5. The upset (minimum) price is 300gns at the Premier Sale. At all other Society/Club sales, the upset price shall be decided between the Society/Club and the auctioneer.
6. Runs are limited to 10, extra runs are placed at the end of the sale (see Carlisle Premier Special Sale Bye-Laws for exceptions).
7. All sheep entered for Society/Club sales must be inspected by a panel of inspectors appointed by the Society. Some sales will also have a Veterinary Officer aiding with the inspection.
8. The inclusion of any animal in the show and/or sale following any inspection is no warranty that the particular animal meets any criteria or criterion in respects of any standards, or will do so in the future.
9. Entry forms must be submitted with all relevant paper work.
10. Any sheep which has not passed Society/Club inspection should be removed from the vendor's pen as soon as possible, and must not be offered for sale, or advertised or promoted, in the ring.

General Appearance The Beltex is a medium sized sheep, long in body. It is wedge shaped from a narrow shoulder to a distinctive large double-muscled hind quarter.

Body: Well muscled shoulder. A wide back and long barrel shaped body.

Gigots: The distinctive characteristic of Beltex Sheep is the double-muscled hindquarters, sloping pelvis, low set tail, deep flushed, well rounded and full of meat. The excessive hindquarter development when compared to the line of the shoulders

Legs: Sheep should be mobile and capable of natural service. Joints should be straight and sound. Legs are usually white but colour is relevant. Feet tight. Pasterns upright. Fine bone structure.

Fleece: Tight, dense of medium staple length, affording a good protective birth coat to the lamb. A medium to tight fleece is tolerated.

Bone: Fine bone is a desirable characteristic.

Teeth: Teeth are inspected and assessed as correct at the discretion of the inspector.

BALLOT INFORMATION

FULL DISPERSAL OF THE PADKIN FLOCK (On behalf of Messrs A & W Padkin)

Comprising: 6 Aged Ewes, 4 Gimmers, and 6 Ewe Lambs

After over 20 years of pedigree Beltex breeding the decision has been made to disperse the flock. We have recently established a dairy herd and the 3 boys are keen on showing calves but not sheep. We have enjoyed success at local and national shows and sales over the years with the highlight coming in 2013 with the sale of Padkin Sugar Daddy. He went on to breed exceptionally well with many top prices and can still be seen in many pedigrees today.

Rams have always been chosen for solid muscle with hard gigots and plenty scope. The ewes have been run more commercially in recent years with all sheep outwintered and a focus on health traits. We have culled hard lately to reduce numbers and only retain our best so the sheep in the sale should go on and perform. We have enjoyed our time within this great breed and the friends and memories it has given us.

All sheep in the sale sold over 500gns luck penny insured.

FINAL DISPERSAL OF THE COCHRANE'S FLOCK – needing an update (On behalf of Messrs J & JM Cochrane)

Comprising: 9 Gimmers

The Cochrane's Flock was established in 2004 from select females from Judith's parents Longley Flock which went back to 1993.

Over the years we have stuck to our goals and turned out naturally reared stock with minimal reliance on embryo transfer. This mindset has allowed us to put forward pens of commercial shearlings for sale through Lawrie & Symington Ltd, Lanark that have had longevity bred through them.

We have never chased breeding rams for pedigree breeders but instead have taken great pleasure in selling pens of commercial tups, with anything else viewed as a bonus.

In previous years we have sold shearlings to 1,600gns; 1,300gns; and 1,200gns with pen averages consistently sitting between £950 and £1080 year on year.

When selecting stock rams we have generally chosen shearling rams that have the attributes we would like to mirror in our own shearlings. Previous stock rams include the 2,500gns Borderesk Jackaroo who left a great stamp on our flock, the 2,000gns 2005 RHASS Breed Champion Glebe and the 3,500gns Tullylagan Jaguar to name a few.

Our personal highlight in the breed would be breeding and selling Cochrane's Nimrod as an Aged Ram through Lawrie & Symington Ltd, Lanark for 3,500gns back in 2011. Before we sold Nimrod we used him for two years ourselves and his breeding is behind a lot of our dispersal females today.

After 32 enjoyable years being part of the Beltex breed, we have decided it is time to disperse. With circumstances changing, between the steady expansion of the farming business, contract shearing and sheep scanning runs, it is becoming harder for us as a family to give the Beltex the attention they deserve.

We will be sorry to see them go but will eagerly watch to see how our bloodlines go on in their new homes. We would like to thank all purchasers past or present and wish everyone the best of luck for the future.
